

Letter to our Customers:

Welcome to our 9th annual production sale. A countless amount of time and energy was put into bringing our customers yet again a premium stock of Angus genetics. We want to thank you all for attending our sale and your continued support over the years. It is with your support that we strive to bring better stock to the sale year after year.

Our spring yearling bulls made the trip again this year to the Kansas Bull Development in Wamego. Brian Hegadorn and his team did another great job of developing our bulls for us. As for our fall yearling bulls, they were kept at home to graze on pasture, supplemented with silage and grain through the winter months while on fescue and native pasture.

Our open spring yearling heifers were developed on native pasture while being supplemented with 5 lbs. of 14% feed and free choice prairie hay. We feel we are bringing you a top quality group of heifers that will make an outstanding addition to any herd.

We look forward to seeing all of you on sale day. Please be sure to come early to view our stock and enjoy a complimentary lunch starting at noon. If you have any questions regarding our cattle please be sure to contact Jerome or Nathan. They will also be onsite that day to walk through our herd and answer your questions. We hope to see you all then.

Sincerely,

The VQAR Team

Inspection of Cattle:

Cattle may be seen at the ranch any time before the sale.

Herd Health:

All VQAR cattle raised and sold are annually vaccinated against Blackleg, IBR, BVD, PI3, and Lepto/Vibrio. Cattle will be accompanied by proper health certificates.

Insurance:

Insurance will be available sale day for your purchases through-
Harding & Harding Livestock Insurance: Shelia Jansen,
agent 785-262-1116

Trucking:

Free trucking will be provided within a 100-mile radius of Vision Quest Angus Ranch.

Terms and Conditions:

Cattle will sell under the standard terms and conditions as recommended by the American Angus Association.

Liability:

All persons who attend this sale do so at their own risk, legal or otherwise, for their safety or the behavior on the animals. The owners or the sale staff assume no liability for property loss or accident that may occur.

Breeding Guarantee:

Vision Quest Angus Ranch guarantees all breeding of cattle sold. Both bulls and females are fertile to the best of the organization's knowledge. If a bull is injured at any time during the first breeding season resulting in functionally infertility a satisfactory replacement will be provided (if available), or a credit of the purchase price will be issued (less the salvage value of the purchase price). If a female is determined to be a non-breeder please contact Vision Quest Angus Ranch before culling; a credit of the purchase price will be issued (less the salvage value of the purchase price). Understand this is not a life insurance policy. Vision Quest Angus Ranch does not replace cattle in the event of death or injury (unless injury is reproductive in nature).

Sincerely,

The VQAR Team

Expected Progeny Difference (EPDs):

Angus Breed Average EPD's			
BW	WW	YW	MILK
1.2	48	85	24

VQAR Cattle Average EPD's			
BW	WW	YW	MILK
1.5	54	95	26

EPDs: The expected difference in performance of a bull's progeny compared to the average progeny performance of all bulls evaluated within the breed. As data continues to accumulate, accuracy levels rise and EPDs can shift accordingly.

Birth Weight EPD (BW): Expressed in pounds, is a predictor of transmitting ability for birth weight. The Angus breed is noted for calving-ease.

Weaning Weight EPD (WW): Expressed in pounds, is a predictor of the transmitting ability for weaning weight. An emphasized trait when marketing calves at weaning.

Yearling Weight EPD (YW): Expressed in pounds, is a predictor of transmitting ability for yearling weight. An emphasized trait for yearling feedlot performance and profitability.

Maternal Milk EPD (MILK): Is a predictor of transmitting ability of the portion of calf weaning weight attributed to daughter's milk. An indicator of replacement female production level.

Carcass Weight EPD (CW): Is a predictor of transmitting ability for hot carcass weight.

Marbling EPD (MARB): Is a predictor of transmitting ability for intramuscular fat. The vast majority of straight Angus cattle will grade USDA Choice or higher under normal feedlot management.

Ribeye Area EPD (REA): Is a predictor of transmitting ability for ribeye area. Muscle is a key component of yield grade.

Fat Thickness EPD (FAT): Is a predictor of transmitting ability for external fat thickness and correlates to fleshing ability.
